## State Park Opens Saturday

### Picnic Tables, Outdoor Grills Available

Saturday, July 15, is the official opening date set by the State Park Department for the new Pahokee State Park. Plans had called for opening on July 4th but much work was not completed at that time.

There will be 30 camp sites when the park is opened located south of the marina, pier and two modern rest rooms. Camp sites will be rented on a daily basis for \$2.55, including tax. Electricity will cost another 50 cents a day.

No reservations will be accepted and camp sites will be rented on a first-come first served basis. The park will be open from 8:00 a. m. daily until sundown.

Ralph Crane, Superintendent, said that juveniles will not be permitted to rent sites. He said, however, that the park department welcomes organized youth groups of six or more visitors, when they are accompanied by an adult chaperon.

Crane said that no pets will be allowed to stay in the park overnight, but during the daylight hours, pets on leash may be in the area.

In the camping areas there are six different designations. They are: one passenger car and one tent; one passenger car and one camp trailer; one van-type camping vehicle and one camp trailer; a pick-up truck and tent and a pick-up truck and camp trailer.

### Street Lights Another Year For Canal Point

## State Museums Entrance Cost Is 15c

Tallahassee, June 28—In an effort to generate more money to operate Florida State Parks, seven museums within the state park system will begin charging a 15 cent entrance fee July 1.

State Parks Director Bill Miller said steadily increasing operating costs and the Legislature's insistence that state parks continue being about one-third self-supporting necessitated the fees. Museum entrance was previously free.

The museums charging admission will be Constitution Convention at Port St. Joe, the Marsh Museum at Tomoka near Ormond Beach, John Gorrie at Apalachicola, the Gregory House at Torreya near Bristol, St. Clair Whitman at Cedar Key, the Indian Mounds Museum at Crystal River, and San Marcos de Apalache near St. Marks when it is reopened following repairs.

Constitution Convention museum contains dioramas and exhibits of Florida's first state convention, as well as of the vanished city of St. Joseph.

The Tomoka museum, named for the late Florida artist Fred Dana Marsh, displays the Marsh art collection as well as the Indian history of the vicinity.

John Gorrie museum has a replica of Dr. Gorrie's famous invention, the ice machine. Other exhibits include early scenes of Apalachicola, newspapers accounts of the period, clothing and artifacts of Dr. Gorrie's time.

The Gregory House at Torreya State Park is an antebellum home which stood for over 100 years on the west side of the Apalachicola River before being moved within the park to its present location on the opposite side. It contains furniture typical of the era in which it was built.

The St. Clair Whitman museum at Cedar Key houses exhibits and dioramas depicting the colorful history of this area, as well as one of the most outstanding shell collections in this region.

The museum at Crystal River is of unique design which allows visitors to view through large plate glass windows the adjacent Indian temple, burial and refuse (kitchen midden) mounds. Interpretive exhibits and artifacts are featured.

San Marcos de Apalache museum is architecturally designed along Spanish lines, in keeping with the history of the 300-year-old Spanish fort ruins adjacent to it. Built on a foundation of stones taken from the old fort during the 19th century, the museum holds exhibits and artifacts of the long and colorful history of the site.

## Agricultural Crew Leader Fined For Failure To Register

The first agricultural crew leader has been convicted for failure to register under the Federal Farm Labor Contractor Registration Act.

The Florida crew leader, Miss Bernetha Williams, was fined and put on probation for a year by a Federal court in Scranton, Pennsylvania. Miss Williams failed to register with the Federal Government as an interstate crew leader and had no accident insurance on the bus she used to transport the migrant workers in the crew.

It was a bus accident that brought about the crew leader's apprehension. The bus carrying 21 migrant workers to work in the tomato fields near Bloomberg, Pennsylvania was involved in an accident in which 17 were injured and one person was killed.

In the probe which followed, Federal investigators learned that the leader had failed to comply with the law.

The Farm Labor Contractor Registration Act seeks to improve working and living conditions for migratory agriculture workers by requiring crew leaders to register annually with the U. S. Department of Labor. They are also required to meet standards in recruiting and transporting workers, one of which is maintenance of insurance on the vehicle used to transport workers.

About 2,000 crew leaders and their regular employees have registered this year under the law which has been in effect since 1965.

## Chemicals Play Major Role In Viet Nam

When the conflict in Vietnam is considered, seldom does one consider the use of chemicals as playing a major role. But, recent reports indicate that chemicals are important and are slated for even wider usage.

Herbicides and defoliants are helping to clear dense plant growth in areas the North Vietnamese have used as shelters. Herbicides are being aerially applied along access trails. Withered foliage reveals movement toward sanctuaries. Stockpiles and ambush points are exposed.

Military men see increasing use of defoliants to expand usable portions of the South Vietnamese highway system. Areas cleared along roads will allow helicopters to patrol highways that would otherwise require patrolling by hundreds of men.

According to Dr. W. G. Eden, entomology department chairman with the University of Florida's Institute of Food and Agricultural Sciences, chemicals are as crucial to U. S. political and economic programs in South Vietnam as they are to battlefield operations. Economically, chemicals account for a large share of the commodities being sent to Vietnam.

Agricultural chemicals are the cornerstone of pacifying the peasants—80% of South Vietnam's population. It is believed that modern American agricultural chemicals will have considerable more impact than the ideological encouragement offered by the Vietnamese. Use of fertilizer and pesticides increased rice yields by about 20 percent last year.

## Electricity Use Shows Big Gain In 1966

The largest annual gain in electric production since 1959 was registered by Florida plants last year with a 13 per cent increase over 1965, the Florida State Chamber of Commerce reported in its Weekly Business Review released recently.

"Annual gains in electric energy are usually larger than other Florida growth indicators, however the volume of electricity generated is a reliable bellwether of economic trends. During the interval, 1959-1966, annual gains in electric production in the state have not fallen below 8 per cent.

"The total output of private and

public electric plants in Florida amounted to 36.7 billion kilowatt-hours last year, more than double the 1959 figure.

"Residential purchasers make up the largest single consumer class among users of electricity. Last year's volume for this use came to 14.1 billion kilowatt-hours. This amount represents a 15 per cent gain over 1965.

"Business firms and other commercial establishments purchased 8.3 billion kilowatt-hours of electric energy last year, up 9 per cent. Processing and manufacturing plants used 7.5 billion kilowatt-hours of purchased power and produced 2.2 billion kilowatt-hours in their own establishments. These figures are more by 16 per cent and 3 per cent respectively than during 1965. Other types users are not reported separately.

"To produce electric power in Florida last year, all companies and plants used together 3,012,000 short tons of coal (up 30 per cent over 1965); 30,481,000 barrels of oil (up 9 per cent); and 97.7 billion cubic feet of gas (a gain of 12 per cent)."

# Buy Bonds where you work.

It's miserable work, crawling through a rice paddy. And being shot at. This American does the job for freedom's sake. So do thousands of his buddies. Many of these brave men also support freedom with their dollars. A majority of our servicemen overseas are investing in U.S.

Savings Bonds. Would you like to show this man you're with him? One good way is to buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll make a good investment. And you'll walk a bit taller.

## Camping Area Near Chipley Open To Public

Chipley—A 16-site camping area at Falling Waters State Park near Chipley has been completed and is open to the public, State Parks Director Bill Miller announced today.

Located in a wooded section of the 155-acre park, the camping area provides each camp site with picnic tables, barbecue, grills, and electrical hook-ups for travel trailers. The campers restroom building is equipped with showers, lavatories and laundry tubs.

Miller said completion of the camping area gives Florida State Parks a total of 24 parks that offer camping, with a combined 2,222 camp sites.

The parks director noted that the campground was part of a \$62,000 construction program for Falling Waters during the 1965-67 biennium. Other facilities added under this program were a pond formed from several native springs to control the flow of water over the falls, an entrance station, and an equipment shelter and shop.

Falling Waters gains its name from a rare Florida waterfall in a scenic setting of nature trails. The park grounds are honeycombed with deep limestone caverns and caves.

Lt. Don A. Bullock is the park superintendent.

Star-spangled way  
to sweeten up your future

The old American proverb says, "money isn't everything, but it sure helps."

And that goes double for the money you put in U.S. Savings Bonds. Because this money helps two ways.

First, it helps your future. Putting youngsters through college. Building homes and summer cottages. Buying cruises for you and the spouse. You dream it, Bonds can deliver it.

Second, it helps your country now, by making Uncle Sam a stronger influence in an unsettled world.

Your fellow Americans have tucked over 50 billion dollars into U.S. Savings

Bonds. Why not join them? There's no safer investment anywhere in the world.

### Quick facts about Series E Savings Bonds

- You get 3½% more money when they mature (7 years)
- You pay no state or local tax and can defer the federal tax until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen

# NEW FREEDOM SHARES

## What are they? Who may buy them?

Americans have put their savings to work for freedom through U.S. Savings Bonds for many years. New Freedom Shares do the same job . . . plus. Read how.

Freedom Shares are U.S. Savings Notes. They pay a higher return than Savings Bonds, 4.74% when held to maturity. And they mature in just four-and-a-half years.

### For regular Bond buyers only

These new Freedom Shares—which are not redeemable for the first year—are offered on a one-for-one basis with E Bonds, but only to people who belong to the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank.

There are four denominations of Freedom Shares, each of which may be paired with a Series E Bond of the same or larger denomination, as a "package." For instance, for

\$39 total, you can purchase a Savings Bond that matures at \$25 and a Freedom Share that matures at \$25.

### America needs your help

When you buy Savings Bonds and Freedom Shares you do an important job for freedom, backing our men in Vietnam and helping to keep the country economically strong. The need is urgent. What *you* do counts.

### Sign up

Tell your supervisor or the Payroll Department where you work (or any officer where you bank) that you'd like to join a Bond purchase plan. Decide how much you'll save . . . whether you want Freedom Shares as well as Bonds . . . and

just sign the authorization card.

You'll be helping your country as you help yourself; the country needs your help.
